For Immediate Release

VIEVU VERIPATROL Evidence Management System Now Offered for the LE5 LITE Body-Worn Camera

On-premise software storage system option for LE5 LITE camera, available November 2017

ONTARIO, California – [Safariland® VIEVU®](#), a brand of [The Safariland Group](#), announces an expansion to its [VERIPATROL™](#) On-site Video Management System, now featuring compatibility with the [LE5 LITE™](#) body-worn camera. Ideal for agencies who utilize on-premise video storage, this new option lets agencies maintain their existing infrastructure when updating their cameras. The LE5 LITE body-worn camera is a best-in-class, fully-integrated system in a compact and lightweight package, allowing agencies to implement or upgrade to a comprehensive body-worn camera program at an affordable price.

“Agencies already using VERIPATROL as their video management system of choice now have the opportunity to maintain their same proven back-end system when they update their hardware. We’ve made it an easy and cost-effective transition for those who want the newer features and lower price of the LE5 LITE camera,” said Sean McCarthy, vice president of strategy and the VIEVU business for Safariland.

VERIPATROL has been a reliable source of on-site video management since 2008. With thousands of agencies currently using the VERIPATROL system, many of them may be looking to upgrade their body-worn cameras to without having to lose their local storage network. This new compatibility option allows agencies of all sizes the same security features large agencies require, while also meeting the demands of on-premise policies and smaller budgets. It includes several layers of security to keep data protected and utilizes a FIPS 140-2 compliant Digital Signature process to prove that video has not been altered. The VERIPATROL on-site solution is fully network capable and can support deployments of all sizes.

Compact and extremely light, the LE5 LITE body-worn camera weighs 2.6 ounces, less than half the weight of the most common body-worn cameras, withstanding the everyday rigors of patrol. It operates in all weather conditions, ranging from -4°F to 122°F. The undistorted field of view of its precision 95-degree lens accurately represents an officer’s maximum field of view and distance ensuring the integrity of recorded evidence. The LE5 LITE camera has a battery life of five hours and features a simple slide on/off switch covering the lens when the camera is off. Additionally, the LE5 LITE features wi-fi and a mobile app.

The LE5 LITE camera and software can be purchased directly online at [viewu.com](#). [VERIPATROL](#) packages for the LE5 LITE camera are available November 2017, and are priced beginning at \$300. This software can easily be added to existing accounts or the user can add a new account. The [LE5 LITE](#) body-worn camera is offered at \$199.

This new offering was presented throughout 2017 IACP Conference in Philadelphia, PA. For more information, visit [www.viewu.com](#).

About Safariland VIEVU

Safariland® VIEVU® is a leading provider of body worn and video technologies, providing secure, high-quality video cameras for law enforcement, security, emergency medical services and retailers. VIEVU Solution, the company's next generation fully-hosted cloud evidence management system, is built on Microsoft® Azure Government Cloud, the first enterprise cloud to directly support the FBI's Criminal Justice Information Services Division. VIEVU is also the only provider of body worn cameras with Automated Video Redaction technology, a highly advanced redaction tool built to automatically blur faces and objects recorded on body worn cameras, without user involvement, in order to protect the privacy and identity of victims, innocent bystanders, minors and undercover police officers. Built on police experience, VIEVU technology is used by thousands of law enforcement agencies in 17 countries. VIEVU received the highest score in an evaluation of body worn video by the U.S. Department of Homeland Security. For information please visit www.vievu.com.
